FORUM 2026
OCTOBER 19-21, 2026 | SINGAPORE

THE 5th INTERNATIONAL CONFERENCE ON

GENETICS, GENE THERAPY & REGENERATIVE MEDICINE

OCTOBER 19-21, 2026 | SINGAPORE

WELCOME TO THE 5TH INTERNATIONAL CONFERENCE 2026 GENETICS, GENE THERAPY & REGENERATIVE MEDICINE

We are delighted to announce the **5th International Genetics, Gene Therapy & Regenerative Medicine Conference (GGTRM 2026)**, taking place on **October 28–30, 2026**, at the **Singapore**.

Building on the success of our previous editions, Gene Therapy Forum 2026 will bring together an international community of researchers, clinicians, biotechnology innovators, regulatory experts, investors, and solution providers to explore the latest advances shaping the future of gene and cell therapy.

This premier European conference is designed to provide a comprehensive platform for scientific exchange, strategic discussions, and meaningful networking. The program will highlight breakthroughs in gene delivery technologies, genome editing, cell engineering, clinical development, manufacturing, regulatory science, commercialization, and emerging therapeutic applications.

Attendees will gain valuable insights into the opportunities and challenges associated with translating innovative therapies from the laboratory to the clinic and ultimately to patients. Through keynote presentations, panel discussions, technical sessions, and interactive networking opportunities participants will engage with leading experts and decision-makers from across the global gene therapy ecosystem.

Gene Therapy Forum 2026 will also address critical topics such as artificial intelligence in cell and gene therapy, investment and partnership opportunities, quality and analytics, ethical considerations, and long-term post-market monitoring. The event is tailored to support both scientific advancement and business growth by fostering collaborations among academia, industry, regulatory agencies, and investors.

As gene therapy continues to transform modern medicine and redefine treatment possibilities for genetic and acquired diseases, the importance of knowledge sharing and collaboration has never been greater. This conference offers a unique opportunity to stay ahead of emerging trends, showcase innovations, and build strategic partnerships that will shape the future of healthcare.

We warmly invite you to join us in Vienna for three inspiring days of cutting-edge science, practical insights, and global networking. Secure your place today and be part of the conversations driving the next generation of gene and cell therapies.

WHY TO ATTEND?

- Understand Current Market Trends
- Navigate Regulatory Frameworks
- Explore Investment and Funding Strategies
- Optimize Manufacturing and Supply Chain Practices
- Enhance Clinical Trial Design and Execution
- Stay Updated on Technological Innovations
- Build Successful Collaborations and Partnerships
- Develop Effective Commercialization Strategies
- Navigate Ethical and Societal Considerations
- Master Post-Market Surveillance and Real-World Evidence

WHO WILL YOU MEET?

INDUSTRY

- Manufacturing
- Product Development
- Quality
- Value & Market Access
- Therapy Administration
- Research & Development
- Regulatory Affairs
- Vector Systems Engineering
- Laboratory
- Science
- Information Technology
- Validation
- Training
- Clinical
- Patient Advocacy

JOB ROLE

- Scientist
- Executive and Mid-Level Management
- Project Management
- Technical Services
- Supply Chain
- Manufacturing
- Application
- Risk Management
- Patient Monitoring
- Customer Engagement
- Marketing and Sales
- Clinical Strategy Pharmacist
- Product Communications
- Clinical Research
- Post Doc, Ph.D. Student

KEY TOPICS

- Human Gene Therapy
- Genome Editing & Gene Engineering
- Cell Therapy & Immune Engineering
- Regenerative Medicine & Stem Cell Biology
- Tissue Engineering & Advanced Biomaterials
- Artificial Intelligence & Digital Innovation in Advanced Therapies
- Precision Medicine & Rare Diseases
- Manufacturing, Translation & Commercialization
- Regulatory Science & Clinical Development
- Emerging Therapeutic Technologies

VENUE

SINGAPORE

The **Singapore**, fully equipped venue located just steps away from the main terminals of Vienna International Airport. Designed for international events, the center offers spacious conference halls, advanced audiovisual facilities, and a comfortable, business-friendly environment ideal for scientific gatherings. Guests benefit from seamless connectivity, on-site accommodation, and easy access to Vienna's city center—known for its rich culture, architecture, and vibrant research community. With elegant interiors, professional support services, and exceptional convenience, NH Vienna Airport provides the perfect setting for hosting **Human Gene Therapy Conference 2026**.

Singapore Gene Therapy Market Overview

Europe continues to be one of the most dynamic and rapidly evolving regions in the global gene therapy landscape. Supported by a strong scientific foundation, favorable regulatory pathways, and increasing public and private investment, the European market is playing a critical role in advancing innovative therapies for rare diseases, genetic disorders, oncology, and regenerative medicine.

The Singapore gene therapy market is segmented across a wide range of therapeutic indications, including cancer, inherited genetic diseases, metabolic disorders, cardiovascular diseases, neurological disorders, ophthalmology, and rare pediatric conditions. Technology platforms driving this market include Adeno-Associated Virus (AAV) vectors, lentiviral and retroviral systems, CRISPR/Cas-based gene editing, non-viral delivery systems, and next-generation manufacturing technologies.

Countries such as Austria, Germany, Switzerland, the United Kingdom, France, and the Netherlands are emerging as major centers for innovation, clinical research, and manufacturing. Europe is home to world-leading academic institutions, biotechnology companies, CDMOs, and regulatory agencies that are collectively accelerating the translation of cutting-edge science into commercial therapies.

The Singapore Medicines Agency (EMA) has established a robust regulatory framework for Advanced Therapy Medicinal Products (ATMPs), creating a structured pathway for the development and approval of gene and cell therapies. Landmark approvals, including treatments for inherited retinal diseases, spinal muscular atrophy, and hematological disorders, have strengthened confidence in the clinical and commercial potential of these therapies.

The market is witnessing rapid growth fueled by strategic partnerships, licensing agreements, and investment from venture capital firms, pharmaceutical companies, and government-backed initiatives. Collaborations between academia and industry are helping to address challenges related to vector development, manufacturing scalability, reimbursement, and long-term patient monitoring.

Singapore is also investing heavily in manufacturing infrastructure, analytical technologies, and quality systems to support large-scale production and commercialization. At the same time, ethical considerations, market access strategies, and health economics are becoming increasingly important as stakeholders work to ensure broad patient access to these transformative treatments.

Gene Therapy Forum 2026 in Singapore will provide a unique platform to explore these market trends, scientific advances, and strategic opportunities. Bringing together global experts from across the gene therapy ecosystem, the conference will offer actionable insights, thought-provoking discussions, and networking opportunities to help shape the future of advanced therapeutics in Singapore and beyond.

SPONSORSHIP OPPORTUNITIES

Join as a sponsor and be recognized as a leader in the global innovation community in Gene Therapy

GOLD SPONSOR-10000 EUR

- An exhibition booth space of 20*10 ft in the exhibiting area.
- One table and two chairs.
- Three complimentary delegate registrations for the employees of sponsoring organization.
- Logo prominently displayed as a gold sponsor on the meeting banner.
- One full-page color advertisement with prime positioning in the conference program.
- Logo displayed and hyperlinked to the organization webpage.
- Acknowledgment as a Gold sponsor during the opening and closing ceremony.
- Speaker opportunity in the conference program.
- One promotional brochure to be inserted in each satchel.

SILVER SPONSOR-7000 EUR

- An exhibition booth space of 10*10 ft in the exhibiting area.
- One table and two chairs.
- Two complimentary delegate registrations for the employees of sponsoring organization.
- Logo prominently displayed as a silver sponsor on the meeting banner.
- One full-page colour advertisement with prime positioning in the conference.
- Logo displayed and hyperlinked to the organization webpage.
- Acknowledgment as a silver sponsor during the opening and closing ceremony.
- Speaker opportunity in the conference program.
- Logo displayed on the conference homepage and all printed materials.
- One promotional brochure to be inserted in each satchel.

BRONZE SPONSOR-5000 EUR

- An exhibition booth space of 10*10 ft in the exhibiting area.
- One complimentary delegate registration for the employees of the sponsoring organization.
- One table and one chair.
- Logo prominently displayed as a bronze sponsor on the meeting banner.
- One half-page color advertisement in the conference program (to be distributed to all participants)
- Logo displayed and hyperlinked to the organization's webpage.
- Acknowledgment as a Bronze sponsor during the opening and closing ceremonies.
- Speaker opportunity in the conference program.
- Logo displayed on the conference homepage and all printed materials.

EXHIBITION OPPORTUNITIES

Gene Therapy Forum 2026 is an exciting opportunity to showcase to a broader international audience. Any new technology and new products from, and or the services your industry or company may offer. As an exhibitor, you will access the corporate executives, researchers, and commercialization leadership who rely on your products and services to develop their new technologies.

EXHIBITOR BENEFITS AND INCLUSIONS-4000 EUR

- An exhibition booth space of 10*6 ft in the exhibiting area.
- One table and one chair.
- One complimentary pass and access to the exhibition booth and networking.
- Publication of the exhibitor profile in the souvenir.
- Logo displayed and hyperlinked to the organization's webpage.

SHOWCASE BOOTH-2500 EUR

Industry prospectors are looking for breakthrough technologies that are ready for licensing, corporate partnering, or investment opportunities. This can include prototypes, demonstrations, and display booths to showcase your innovative solutions at Gene Forum 2026.

MARKETING AND PROMOTIONAL OPPORTUNITIES

Gene Therapy Forum 2026 offers various marketing and promotional opportunities for corporate companies. MPOs are an effective way to raise your company's visibility, effectively get your message and brand out to a targeted audience, generate more sales opportunities, and increase the event's ROI. History has shown that companies that utilize MPOs generate more booth traffic, more sales leads, and an overall higher level of satisfaction than companies that do not take advantage of these opportunities.

- Lunch/cocktail sponsor
- Coffee break sponsor
- Keynote/oral sessions sponsor
- Conference delegate bag sponsor
- Bag insert sponsor
- Lanyard sponsor
- Notepad sponsor

REGISTRATION

Revolutionize the future of medicine! Join us at the forefront of innovation for the **5th International Genetics, Gene Therapy & Regenerative Medicine Conference (GGTRM 2026)**. Secure your seat and be part of groundbreaking discoveries that will shape tomorrow's healthcare landscape. Don't just spectate, participate! Reserve your spot today and be empowered to make a difference in the world of gene therapy. Elevate your understanding, expand your network, and ignite your passion for cutting-edge science. Time is ticking; register now and unlock the potential of gene therapy.

- Abstract Submission Date ends on **30 June, 2026**
- Early Bird Registration ends on **15 June, 2026**
- Standard Registration ends on **22 August, 2026**
- Final Registration ends on **1 October, 2026**

EARLY BIRD REGISTRATION

Ends on June 15, 2026

INDUSTRY/COMPANY
EUR 990

ACADEMIC & NON-PROFITS
EUR 890

SERVICE & TOOL PROVIDERS
EUR 1190

STUDENT
EUR 390

ONLINE TALK
EUR 300

STANDARD REGISTRATION

Ends on August 22, 2026

INDUSTRY/COMPANY
EUR 1390

ACADEMIC & NON-PROFITS
EUR 1090

SERVICE & TOOL PROVIDERS
EUR 1190

STUDENT
EUR 490

ONLINE TALK
EUR 350

FINAL REGISTRATION

Ends on October 1, 2026

INDUSTRY/COMPANY
EUR 1590

ACADEMIC & NON-PROFITS
EUR 1290

SERVICE & TOOL PROVIDERS
EUR 1390

STUDENT
EUR 590

PARTICIPATION FORMATS

Choose suitable options to get maximum benefits:

DELEGATE PARTICIPATION

- 1 delegate pass
- Access to all conference sessions
- Access to workshops/symposiums
- Access to exhibitor/sponsor booths
- Conference materials
- Lunch/breaks during the conference days
- Opportunity to invite attendees to one-to-one meetings
- Post-conference materials

SPEAKER OPPORTUNITY

- Speaker slot in the program
- Access to all conference sessions
- Access to workshops/symposiums
- Access to exhibitor/sponsor booths
- Conference materials
- Lunch/breaks during the conference days
- Post-conference materials
- Branding package

EXHIBITION BOOTH SPACE

- 1 delegate pass
- 10*6 ft exhibition booth space
- Access to all conference sessions
- Access to workshops/symposiums
- Access to exhibitor/sponsor booths
- Conference materials
- Lunch/breaks during the conference days
- Post-conference materials
- Exclusive branding package

SPONSORSHIP OPPORTUNITIES

- Extended number of delegate passes
- Speaker slot in the program
- Prescheduled one-to-one meetings
- Access to all conference sessions
- Access to workshops/symposiums
- Access to exhibitor/sponsor booths
- Conference materials
- Lunch/breaks during the conference days
- Post-conference materials
- Exclusive branding package
